# ABOUT US

**ATOM POWER CONTROLS is a trusted leader in the electrical engineering industry, offering high-quality and custom-engineered electrical control solutions. Based in Bangalore, Karnataka, we specialize in the design, manufacturing, and supply of all types of electrical control panels, cable trays, and raceways, serving a wide range of industrial and commercial sectors across India.**

**Our commitment to safety, precision, and performance drives us to create efficient and future-ready products. Our range includes \*\*Power Control Centers (PCC)\*\*\*, \*\*Motor Control Centers (MCC)\*\*\*, \*\*Automatic Power Factor Correction Panels (APFC)\*\*\*, \*\*PLC-based automation panels\*\*\*, and tailored solutions to meet client specifications. Each product undergoes rigorous testing to ensure it meets industry standards.**

**Equipped with modern machinery, our in-house manufacturing unit supports precise engineering and streamlined production processes. Our skilled team of professionals ensures that all products pass a strict quality check before dispatch.**

**Over the years, we've established strong relationships with contractors, developers, factories, and government institutions. Our ability to deliver timely, cost-effective solutions that meet project-specific needs sets us apart.**

**In addition to control panels, we also produce durable \*\*cable trays\*\* and \*\*raceways\*\*\*, essential for secure and organized wiring in industrial and commercial setups. These are available in various sizes and specifications to suit diverse infrastructure needs.**

**At ATOM POWER CONTROLS, we prioritize innovation, customer satisfaction, and long-term reliability. We aim to evolve with the power sector's changing demands and provide sustainable solutions that support industries and infrastructure.**

**Explore our catalog and discover how ATOM POWER CONTROLS can power your next project with excellence and trust.**

# VISION

At ATOM POWER CONTROLS, our vision is to be a leading force in the electrical engineering industry by delivering innovative, reliable, and safe power solutions. We are committed to advancing energy efficiency and industrial automation while maintaining the highest standards of safety and quality. Guided by our tagline, "Powering Safely", we strive to create smarter electrical infrastructure that empowers businesses, supports sustainability, and enhances operational performance. Through continuous improvement, cutting-edge technology, and a customer-centric approach, we aim to build a future where power systems are not only efficient—but also secure, sustainable, and built to last.

# MISSION

Our mission at ATOM POWER CONTROLS is to provide high-quality, customized electrical control solutions that prioritize safety, reliability, and performance. We aim to serve industries with products that meet evolving technological demands while ensuring the utmost safety in power distribution and control. Through innovation, skilled craftsmanship, and a commitment to customer satisfaction, we endeavor to become a trusted partner in every project we power. By consistently upholding our core principle of "Powering Safely", we aim to make energy systems smarter, safer, and more efficient for businesses across sectors.

# OUR VALUES

## Safety First

We prioritize safety in every design, build, and delivery—because powering safely is not just our tagline, it's our promise.

## Quality & Precision

We believe in doing it right the first time, using only the best materials, skilled craftsmanship, and rigorous testing protocols.

## Customer Commitment

We listen, understand, and deliver. Every client relationship is built on trust, transparency, and tailored service.

## Innovation-Driven

We embrace technology and continuous improvement to stay ahead in delivering modern, efficient, and future-ready power solutions.

## Integrity & Responsibility

We conduct business with honesty, accountability, and respect for people, communities, and the environment.

## PRODUCTS WE MANUFACTURE

- LT Panels
- DG Synchronizing Panels
- Automation Panels with HMI/PLC
- BESCOM Metering Panels
- Bus Ducts
- Cable Trays & Raceways
- Power Factor Control Panels
- VFD,MCC Panels
- Turn Key Projects
